**AUSPOWER**  
*your high voltage people*

## KIOSK SUBSTATIONS

**Auspower now has a range of 50KVA to 2000KVA Kiosks. HV or LV switchgear optional.**

### FEATURES:

- Durable
- Designed and manufactured in Australia
- High quality Eaton Switchgear
- Custom built to your specifications
- Short delivery times
- Powder coated or fibreglass

Time is a major factor in most high voltage projects, our delivery times are some of the shortest in Australia, and our pricing competitive.

## FIBREGLASS KIOSKS

Auspower now has a range of fibreglass 50KVA to 2000KVA Kiosks. HV or LV switchgear optional.

Auspower's fibreglass kiosks have a range of applications and unique features and benefits such as:

- Fast lead times
- High quality switchgear
- Non Conductive
- High Strength
- Light Weight
- Non Reactive
- Non Corrosive
- Flexible Design Shape
- Vandalism proof
- High Australian content
